

NEWSLETTER NUUSBRIEF

14th August 2018

To our Valued Suppliers,

Green Farms Nut Company is happy to inform you that payment receipts from our Customers on this seasons' crop are now starting to steadily flow in and the cash flow pressure, as outlined in our newsletter on the 12th July, is now easing.

Therefore, from Friday 17th August, our accounts office will start the process of catching up on the outstanding balances owed to our growers over the past month. It will take a bit of time but all payments should be up to date relatively shortly. We do appreciate your understanding and co-operation.

We also note with the current weakness of the Rand all is on track for a decent agterskot for the end of the season!

We believe Green & Gold's strategy of selling across all markets globally is helping us build global demand and our outlook for the 2019 season is positive. Some of our larger customers have already indicated their demand is still steady and growing despite the record prices for the 2018 season! Good news indeed.

Should you have any questions regarding the above please do not hesitate to contact your local factory manager or grower liaison.

Wishing you all the best, for the remainder of the season.
